Part II: Certification	II. Health information		
	<p>I, the undersigned official veterinarian, certify the following:</p> <p>II.1. (insert EU Member State of origin or a region thereof) is officially free from foot and mouth disease without vaccination and contagious bovine pleuropneumonia.</p> <p>II.2. The fresh meat has been obtained from animals that:</p> <p>Either</p> <ul style="list-style-type: none"> <li>○ [II.2.1. Have remained in the territory described under point II.1 since birth before slaughter;]</li> </ul> <p>Or</p> <ul style="list-style-type: none"> <li>○ [II.2.1. Have been introduced in the territory described under point II.1, from another EU Member State that has the same sanitary conditions described in point II.1.]</li> </ul> <p>II.2.2. Have remained at the holding of origin for at least 40 days before direct dispatch to the slaughterhouse.</p> <p>II.2.3. Come from holdings placed under the supervision of the competent authority and approved for export.</p> <p>II.2.4. Have shown no evidence of disease when leaving the holding of origin on the basis of food chain information received with the animals.</p> <p>II.2.5. Have been transported from their holding in vehicles that are legally required to be cleaned and disinfected before loading, to an approved slaughterhouse without contact with other animals which did not comply with the conditions requested by Chile.</p> <p>II.2.6. Have passed ante-mortem and post-mortem inspection and have shown no sign of disease.</p> <p>II.3. The slaughterhouse and cutting plants</p> <p>II.3.1. Are under permanent supervision of an official veterinarian and are in compliance with Section I, Annex III, to Regulation (EC) 853/2004 and Annex I to Regulation (EC) 854/2004.</p> <p>II.3.2. Are approved by SAG (1) according to the applicable provisions and fulfil the EU and National legislation.</p> <p>II.3.3. Only slaughter animals and store meat from countries or regions with the same sanitary status for the diseases mentioned in point II.1.</p> <p>II.3.4. Keep, at least for 2 years, the TRACES Intra Trade Animal Health certificate which includes the date of transport, identification of the holding of origin and health certification indicating that before scheduled departure the animals had not shown clinical signs of infectious or contagious disease.</p> <p>II.4. The meat to be exported:</p> <p>II.4.1. Has been obtained, stored and transported in compliance with the specific hygiene rules laid down in Regulation (EC) 853/2004.</p> <p>II.5. The transport and packing of the meat:</p> <p>II.5.1. Transport from the slaughterhouse to the EU point of exit has been carried out in vehicles that ensure the maintenance of the temperature between 0° C and 4° C for chilled meat and under -12° C in the case of frozen meat.</p> <p>II.5.2. The meat have been packed using new containers closed with an official seal that guarantees that, after opening, the evidence of its opening remains clear and easy to check.</p> <p>II.5.3. The packaging complies with EU labelling legislation.</p> <p>Notes:</p> <p>Part I:</p> <p>Box I.11.: Name, address and approval number of the establishment of dispatch.</p> <p>Box I.25: Use the appropriate Harmonised System (HS) code under the following headings: 0201 and 0202.</p> <p>Category of the carcass(2):</p> <ul style="list-style-type: none"> <li>• Category Z: conformation class S, E, U, R, O, P; fat cover 2, 3, 4, 5 (For Chile: (V) "Novillito, Novillo, Vaquilla y Vaca Joven", maximum 4 permanent teeth (10 to 34 months old); fat cover 1, 2 and 3.
