Part II: Certification	II. Health information		
	<p>II. Health information</p> <p>I, the undersigned official veterinarian, certify the following:</p> <p>II.1. The animals originate from protected colonies (Barrier Colonies) and are specific pathogen free (SPF). The animals are frequently monitored to detect infectious agents known to cause diseases of laboratory mice, such as the following viruses and bacteria: Ectromelia, Sendai virus, Lymphocytic choriomeningitis, Salmonella spp. and rat bite fever (Streptobacillus moniliformis).</p> <p>II.2. The animals have never shown any clinical signs of bacterial diseases affecting the species.</p> <p>II.3. The animals originate from colonies that are frequently monitored for, and are free of internal and external parasites that affect laboratory mice.</p> <p>II.4. On the day of loading for despatch the animals did not show any clinical signs of disease, or evidence of external parasites.</p> <p>II.5. Transport from the place of origin to the place of shipment was done in clean and disinfected cages, the animals not coming in contact with animals which are not for export.</p> <p>Notes</p> <p>Part I</p> <p>Box I.25.: Age: Date of birth (dd/mm/yy).</p> <p>Sex (M = male, F = female).</p> <ul style="list-style-type: none"> <li>· The signature and the stamp must be in a different colour to that of the printing.</li> <li>· The certificate must be issued in Spanish and in the language of the EU Member State of origin.</li> </ul> <p><b>This certificate is valid for 10 days from the date of signature.</b></p>
