Part II: Certification	II. Health information			
		I, the undersigned official veterinarian, certify the following:		
	II.1.	(insert EU Member State of origin or a region thereof) is officially recognised by the OIE as free from foot and mouth disease without vaccination, and it is free from sheep and goat pox and peste des petits ruminants, according to the criteria laid down in the correspondent Chapter of the most recent version of the terrestrial animal health code of the OIE.		
	II.2.	The semen collection centre(1) at which the semen to be exported was collected:		
	II.2.1.	is approved, in accordance with the EU legislation in force and by SAG, to export semen to Chile and complies with the requirements laid down in the most recent version of the OIE Terrestrial Animal Health Code;		
	II.2.2.	is under direct supervision of a veterinarian employed by the centre;		
	II.2.3.	maintains a daily record of health of the resident animals;		
	II.2.4.	maintains a record of the daily production and semen produced is traceable.		
	II.2.5.	is physically isolated from other stockfarming establishments and maintains biosecurity conditions;		
	II.2.6.	the staff working in the centre has no contact with animals that could pose a health hazard to the species concerned.		
II.3.	The animals standing at the semen collection centre::			
II.3.1.	come from holdings free from brucellosis (<i>B. mellitensis</i> and <i>B. ovis</i>) and enzootic abortion of ewes (<i>Chlamydomydia abortus</i>), and comply with the recommendations relating to scrapie, , in accordance with the procedure laid down in the most recent version of the OIE Terrestrial Animal Health Code.			
II.3.2.	come from holdings that have not been subjected to health restrictions for infectious-contagious diseases notifiable for the species during the last 24 months.			
II.3.3.	were subjected to a pre-entry quarantine of at least 28 days, which complies with the provisions set by the competent authority of the country and within that period, and at least 21 days after being admitted to the quarantine accommodation, have undergone with negative results the routine diagnostic tests that are performed at the centre, test which are in line with those set out in the most recent version of the Terrestrial Animal Health Code of the OIE(3).			
(2)either	○ [II.3.4. come from a country/region(2) declared free of ovine and caprine brucellosis (<i>B. mellitensis</i>) in accordance with the procedure laid down in the most recent version of the OIE Terrestrial Animal Health Code;]			
(2)or	○ [II.3.4. have been annually subjected in accordance with OIE standards with negative results to diagnostic test for ovine and caprine brucellosis (<i>B. mellitensis</i>) (3)]			
	II.3.5. have been annually subjected in accordance with the procedure laid down in the most recent version of the OIE Terrestrial Animal Health Code with negative results to diagnostic test for ovine epididymitis (<i>B. ovis</i>) (4) and maedi-visna/caprine arthritis-encephalitis (3).			
either	○ [II.3.6. come from a country/region(2) declared free of tuberculosis(5) (<i>M. bovis</i> or <i>M. caprae</i>) in accordance with the procedure laid down in the most recent version of the OIE Terrestrial Animal Health Code;]			
(2)or	○ [II.3.6. have been annually subjected in accordance with the procedure laid down in the most recent version of the OIE Terrestrial Animal Health Code with negative results to diagnostic test tuberculosis(5) (<i>M. bovis</i> or <i>M. caprae</i>) (3)]			
(2)either	○ [II.3.7. come from a country/region(2) free of bluetongue;]			
(2)or	○ [II.3.7. come from a holding under surveillance program for the control of bluetongue and the animals meet the requirements described in the most recent version of the OIE Terrestrial Animal Health Code;]			
II.4.	The donor animal			
II.4.1.	meets the requirements laid down in point 3, related to the admission of breeding animals in the Centre.			
II.4.2.	was born in the country or region thereof mentioned in point II.1 or comes from a country with the same health status as described under point II.1.			

Part II: Certification	II. Health information			
	II.4.3.	was examined on the day the semen was collected and there was no evidence of contagious diseases affecting the species, and has not been exposed to these diseases in the last 90 days prior to the collection of the semen.		
	II.5.	The semen to be exported:		
	II.5.1.	was collected, processed and stored in accordance with the provisions of the most recent version of the OIE Terrestrial Animal Health Code;		
	II.5.2.	was diluted using sterile diluents to which the following antibiotics were added: ; (indicate the type of antibiotics and concentrations used)		
	II.5.3.	have been stored only in sterilised vials with fresh nitrogen not used for any other purpose;		
	II.5.4.	after collection and until its departure was kept in containers exclusively for export to Chile or with semen that meets at least the same requirements as those that must be achieved to export to Chile, and separate from any other semen.		
	Notes			
	Part I:			
	Box I.11.:	Place of origin: shall correspond to the semen collection or storage centres approved for export to Chile, from which the semen is dispatched		
Box I.20.:	Number of packages: shall correspond to the number of containers.			
Box I.21.:	Identification of container and seal number shall be indicated.			
Box I.25.:	Species: select amongst "Ovis aries" or "Capra hircus" as appropriate. Donor identity: shall correspond to the official identification of the animal (eartag number) Date of collection: shall be indicated in the following format: dd/mm/yyyy.			
Part II:				
(1)	Only semen collection centres listed in accordance with Article 11(4) of Directive 92/65/EEC on the Commission: <LINK1 HREF="http://ec.europa.eu/food/animal/approved_establishments/establishments_vet_field_en.htm"~web page~LINK1> and listed in the Register of Authorized establishments for export to Chile: <LINK2 HREF="http://www.sag.gob.cl/opendocs/asp/pagDefault.asp?boton=Doc51&argInstanciaId=51&argCarpetaId=1394&argTreeNodosAbiertos=(1394)(-51)&argTreeNodoActual=1394&argTreeNodoSel=8"~web page~LINK2>			
(2)	Delete as necessary.			
(3)	Diagnostic tests must be carried out in official laboratories or authorised for this purpose by the competent authority of the exporting country.			
(4)	For ovine semen only.			
(5)	For caprine semen only			
.	The signature and the stamp must be in a different colour to that of the printing.			
.	The certificate must be issued in Spanish and in the language of the EU Member State of origin.
