<b>Part II: Certification</b>	II. Health information		
I, the undersigned State/official veterinarian, certify that:			
1. Equine semen exported to the Republic of Moldova was collected from clinically healthy animals in semen collection centres and/or administrative territories that:			
1.1. are free from the following contagious animal diseases, according to official findings:			
- African horse sickness;			
- Dourine (Trypanosoma equiperdum), glanders - during the last 6 months on the territory of the EU Member State or administrative territory according to regionalisation.			
1.2. had no cases of the following contagious diseases in the semen collection centre:			
- Contagious equine metritis;			
- Equine infectious anaemia;			
- Equine viral arteritis			
2. Donor stallions from which the semen was obtained were kept in semen collection centres for 30 days prior to the date of semen collection and were not used for natural mating during that period.			
3. Animals are not vaccinated against African horse sickness			
4. Animals have been			
(1) <input type="checkbox"/> either [vaccinated against equine rhinopneumonitis (EHV-1 & 4) (to indicate the date of vaccination and name of vaccine)]			
(1) <input type="checkbox"/> or [not vaccinated against equine rhinopneumonitis (EHV-1 & 4)]			
5. Before the semen collection the donor stallions (or in the case of Equine viral arteritis their semen, in accordance with the OIE Terrestrial Animal Health Code) were subjected to the following tests in a state approved laboratory by the methods recommended by OIE Terrestrial Manual, with negative results (indicate the name of the laboratory, if relevant, and date and the testing method) for:			
- (2) Dourine (Trypanosoma equiperdum):			
- Contagious equine metritis:			
- Equine viral arteritis:			
6. Antibiotics have been added to the equine semen according to the OIE Terrestrial Animal Health Code (to indicate the names of antibiotics added and their concentration).			
7. Equine semen has been collected, stored and transported according to the OIE Terrestrial Animal Health Code.			
Notes:			
Part I:			
Box I.21: Either seal- or container number or both is to be indicated in this box.			
Part II:			
(1) Cross out as appropriate.			
(2) Testing for the abovementioned disease may not be carried out if the exporting country is free from this disease in accordance with the standards in the OIE Terrestrial Animal Health Code.			
Signature and stamp must be different color that in the printed certificate.
