II. Health information			
<b>Part II: Certification</b>	I, the undersigned state/official veterinarian certify that:		
	II.1. Semen exported to the Customs Union was collected from clinically healthy animals originating from semen collection centre(s) (artificial insemination centre(s)) and/or administrative territories:		
	II.1.1. that are officially free from the following contagious animal diseases:		
	· African swine fever during the last 36 months in the EU Member State or administrative territory in accordance with regionalisation, or during the last 12 months in the EU Member State or administrative territory if the disease has not been present upon confirmation by the data of epizootic and entomological monitoring;		
	· foot-and-mouth disease and classical swine fever - during the last 12 months on the territory of the EU Member State or administrative territory according to regionalisation		
	· swine vesicular disease – during the last 24 months in the country or on the administrative territory according to regionalisation, or during the last 9 months, provided stamping out was carried out in the country or administrative territory in accordance with regionalisation;		
	· Aujeszky's disease during the last 12 months in the semen collection centre(s) (artificial insemination centre(s))		
	· tuberculosis and brucellosis- during the last 6 months in the semen collection centre (s) (artificial insemination centre(s))		
	II.1.2. where there were no cases of the following contagious diseases:		
	· leptospirosis during the last 3 months in the semen collection centre(s) (artificial insemination centre(s))		
· anthrax - during the last 20 days in the semen collection centre(s) (artificial insemination centre(s))			
· porcine reproductive and respiratory syndrome and Teschen disease - during the last 6 months in the semen collection centre(s) (artificial insemination centre(s))			
II.2. Boars, from which the semen was collected, were kept in the above mentioned semen collection centre(s) not less than 30 days before semen collection and were not used for natural mating.			
II.3. Vaccination against brucellosis and leptospirosis of pigs was not carried out in the establishments (centres) of semen collection (artificial insemination).			
II.4. Within the time-limit recommended by OIE Terrestrial Animal Health Code before the collection of semen, donor boars have been tested, as appropriate, in a state approved laboratory by the methods recommended by OIE Terrestrial Manual, with negative results (indicate the name of the laboratory and date and the testing method) for:(1)			
· classical swine fever			
· brucellosis of pigs			
· Aujeszky's disease			
· swine vesicular disease			
· porcine reproductive and respiratory syndrome			
· transmissible gastroenteritis			
II.5. Antibiotics have been added to the semen according to the OIE Terrestrial Animal Health Code (to indicate the names of antibiotics added and their concentration)			
II.6. Semen has been selected, stored and transported according to the OIE Terrestrial Animal Health Code			
Notes			
Part I			
· Box I.11.: Place of origin: name, approval number and address of the semen collection centre.			
· Box I.16.: Point of crossing the border of the Custom Union.			
· Box I.18.: Temperature of storage and transport.			
· Box I.19.: Total number of doses of the semen in the consignment.			
· Box I.20.: Number of packages: shall correspond to the number of containers.			
· Box I.25.: Identification of goods			
Customs code and title: Use the appropriate Harmonised System (HS) code.			

<b>Part II: Certification</b>	II. Health information								
	<p>If the semen was collected more than 5 times (donor animals or collection dates), then the inventory is made which is signed by the State/official veterinarian of exporting country and constitutes an integral part of this certificate.</p>								
	<p>Part II</p> <p>(1) The test for the disease is not required if the exporting country is officially free of the disease in accordance with OIE Terrestrial Animal Health Code. Veterinarian who provides the certificates, must indicate opposite the disease “The country is officially free from the mentioned disease, tests were not carried out”</p>								
	<p>Signature and stamp must be in a different colour to that in the printed certificate</p>
