EUROPEAN UNION

	II. Health info	rmation						
	I, the undersigned State/official veterinarian, certify that:							
	1.	Semen exported to the Republic of Moldova was collected from clinically healthy animals in semen collection centre(s) and/or administrative territories that are free, according to official findings, from the following contagious animal diseases:						
_	-	foot-and-m	outh disease					
Part II: Certification	-	brucellosis	, tuberculosis and contagious bovin	e pleuropneumonia				
	-	enzootic bovine leucosis.						
	2.	Semen to be exported to the Republic of Moldova was collected from donor bulls that:						
		(1) 0 either	[were kept in a bluetongue virus-f Delegated Regulation (EU) 2020/689 semen;]	-				
		(1) \circ or [were kept during a bluetongue virus seasonally free period in a seasonally least 60 days prior to, and during collection of the semen;]						
		(1) or	r [were kept in a vector protected establishment for at least 60 days prior to, and during collection of the semen;]					
	(1) \circ or [were subjected to a serological test to detect antibodies to the bluetongue virus gro carried out in accordance with the WOAH Manual of Diagnostic Tests and Vaccines Terrestrial Animals, with negative results, at least every 60 days throughout the co- period and between 21 and 60 days after the final collection for this consignment of							
		(1) or	[were subject to an agent identification with the WOAH Manual of Diagnost negative results on blood samples to consignment of semen and at least (PCR test) during collection for this	stic Tests and Vaccines for Ter taken at commencement and every 7 days (virus isolation	rrestrial Animals with final collection for this			
	3.	Donor bulls, from which the semen was collected, were kept on the above mentioned semen collection centre(s) not less than 30 days before semen collection and are not used for natural mating.						
	4.		onor bulls have not received feed of animal origin, manufactured from protein processed from minant animals, excluding components permitted by the WOAH Terrestrial Animal Health Code.					
	5.	Donor bull	alls were not kept together with small ruminants at the semen collection centre.					
	6.	As regards	bovine tuberculosis, at the time of t	he collection/production of th	e bovine semen:			
		(1) o either	[the establishment of origin is free Delegated Regulation (EU) 2020/68					
		(1) • or	[within the time-limit recommend least once a year if no time-limit is donor bulls have been tested, as an recommended by the WOAH Manu Animals, with negative results (ind the testing method) for bovine tube	recommended by WOAH, before propriate, in a state approved all of Diagnostic Tests and Vac licate the name of the laborate	fore the collection of semen, d laboratory by the methods ccines for Terrestrial			
	7.	As regards	brucellosis, at the time of the collec	tion/production of the bovine	semen:			
		(1) 0 either	[the establishment of origin is free Delegated Regulation (EU) 2020/68					
		(1) or	[within the time-limit recommend least once a year if no time-limit is donor bulls have been tested, as an recommended by the WOAH Manu Animals, with negative results (ind the testing method) for brucellosis;	recommended by WOAH, before propriate, in a state approved all of Diagnostic Tests and Vac licate the name of the laborate	fore the collection of semen, d laboratory by the methods ccines for Terrestrial			
	8.	Within the time-limit recommended by the WOAH Terrestrial Animal Health Code or at least once a year if no time-limit is recommended by WOAH, before the collection of semen, donor bulls have been tested, as appropriate, in a state approved laboratory by the methods recommended by the WOAH Manual of Diagnostic Tests and Vaccines for Terrestrial Animals, with negative results (indicate the name of the laboratory, if relevant, and date and the testing method) for:						

(MD) Bovine semen exported from the EU to the Republic of Moldova
