Part II: Certification	II. Health information		
		The specific requirements for the use of antimicrobials and vaccines in Regulation (EC) No 1177/2006 have been applied to the day-old chicks.	
		(1) For reasons other than the Salmonella control programme:	
		(3) either <input type="radio"/> [antimicrobials were not administered to the day-old chicks (including in-ovo injection);]	
		(3)(8) or <input type="radio"/> [the following antimicrobials were administered to the day-old chicks (including in-ovo injection) ;]	
	(6) <input type="checkbox"/>	If the day-old chicks are intended for breeding, neither Salmonella Enteritidis nor Salmonella Typhimurium were detected within the control programme referred to in point II.2.1.]	
	II.2.2		
	II.3 .	Animal health additional guarantees	
		I, the undersigned official veterinarian, further certify that:	
	(12) <input type="checkbox"/>	the day-old chicks described in this certificate have hatched from eggs collected from breeding flocks which have been examined and tested in accordance with point 8 of Section I of Annex 3 to Regulation (EC) No 798/2008.]	
II.3.1			
II.4 .	Additional health requirements		
	I, the undersigned official veterinarian, further certify that:		
(9) <input type="checkbox"/>	although the use of vaccines against Newcastle disease which do not fulfil the specific requirements of Annex 6 (II) to Regulation (EC) No 798/2008 is not prohibited in:		
II.4.1			
(2)(3) either	<input type="radio"/> [the territory of code ;]		
r			
(3)(4) or	<input type="radio"/> [compartment(s) ;]		
	the breeding poultry from which the day-old chicks are derived:		
	(a) have not been vaccinated for at least the previous 12 months with such vaccines;		
	(b) comes from a flock or flocks which underwent a virus isolation test for Newcastle disease, carried out in an official laboratory not earlier than 14 days preceding consignment on a random sample of cloacal swabs from at least 60 birds in each flock and in which no avian paramyxoviruses with an Intracerebral Pathogenicity Index (ICPI) of more than 0,4 were found;		
	(c) have not been in contact during the last 60 days before consignment with poultry which does not fulfil the conditions in (a) and (b);		
	(d) have been kept in isolation under official surveillance on the establishment of origin in the 14-day period mentioned in (b);]		
(9) <input type="checkbox"/>	the hatching eggs from which the day-old chicks have been hatched have not been in contact in the hatchery or during transport with eggs or poultry which do not fulfil the abovementioned requirements.]		
II.4.2			
(10) <input type="checkbox"/>	Animal transport attestation		
II.5			
	I, the undersigned official veterinarian, further certify that:		
II.5.1	the day-old chicks described in this certificate are transported in perfectly clean, disposable boxes used for the first time and:		
	(a) contain only day-old chicks of the same species, category and type coming from the same establishment;		
	(b) bear the following information:		
	- the name of the country, territory, zone or compartment of consignment,		
	- the species of poultry concerned,		
	- the number of chicks,		
	- the category and type of production for which they are intended,		
	- the name, address and approval number of the production establishment,		
	- the approval number of the establishment of origin,		
	- the country of destination in Great Britain		

Part II: Certification	II. Health information		
	(c) are closed in accordance with the instructions of the competent authority to avoid any possibility of substitution of the contents; The containers and vehicles in which the boxes mentioned above have been transported have been cleansed and disinfected before loading in accordance with the instructions of the competent authority.]		
	Notes		
	References to European Union legislation within this certificate are references to direct EU legislation which has been retained in Great Britain (retained EU law as defined in the European Union (Withdrawal) Act 2018) and can be viewed on the UK legislation website (legislation.gov.uk).		
	References to Great Britain in this certificate include Channel Islands and Isle of Man.		
	Part I:		
	- Box reference I.8:	Provide the code for the zone or the compartment of origin, if necessary, as defined under code in column 2 as set out in a document relating to 'poultry and poultry products' published on gov.uk, in accordance with Regulation (EC) No 798/2008.(13)	
	- Box reference I.11:	Name, address and approval number of hatcheries and the breeding establishment.	
	Box reference I.15:	Indicate the registration number(s) of railway wagons and lorries, the names of ships and, if known, the flight numbers of aircraft. In the case of transport in containers or boxes, the total number of these and their registration and where there is a serial number of the seal it has to be indicated in box I.23.	
	- Box reference I.19:	Use the appropriate Harmonised System (HS) code of the World Customs Organisation: 01.05 or 01.06.39.	
	- Box reference I.28:	(Category): Select one of the following: Pure line/grandparents/parents/laying stock/broilers/others.	

Part II: Certification	II. Health information			
	Part II:			
	(1)	'Day-old chicks' as defined in Regulation (EC) No 798/2008.		
	(2)	Code of the territory as it appears in column 2 as set out in a document relating to 'poultry and poultry products' published on gov.uk, in accordance with Regulation (EC) No 798/2008.(13)		
	(3)	Keep as appropriate.		
	(4)	Insert the name of compartment(s).		
	(5)	Keep if appropriate.		
	(6)	This guarantee applies only for day-old chicks belonging to the species of Gallus gallus and turkeys.		
	(7)	If any of the results were positive for the serotypes below during the life of the flock, indicate as positive: <ul style="list-style-type: none">- flocks of breeding poultry: Salmonella Hadar, Salmonella Virchow and Salmonella Infantis;- flocks of productive poultry: Salmonella Enteritidis and Salmonella Typhimurium.		
	(8)	Keep if appropriate: indicate the name and active substance of antimicrobials used.		
	(9)	This guarantee is required only for poultry coming from countries, territories, zones or compartments where Article 13(1) of Regulation (EC) No 798/2008 applies.		
	(10)	Please note that according to Regulation (EC) No 1/2005 animals will be checked by the competent authorities if they are fit to continue the journey after entry into Great Britain. In the case the requirements are not fulfilled, the animals need to be unloaded and further measures taken.		
	(11)	For countries or territories with the entry 'N' in column 6 as set out in a document relating to 'poultry and poultry products' published on gov.uk, in accordance with Regulation (EC) No 798/2008(13), for day-old chicks other than of ratites (DOC) only, this means that in the case of an outbreak of Newcastle disease as defined in Regulation (EC) No 798/2008 then the country code or territory code shall continue to be used but this will exclude any area under official restrictions, by the third country concerned in relation to Newcastle disease, at the date of issue of this certificate.		
	(12)	This guarantee is only required for day-old chicks coming from countries, territories or zones with the entry 'X' in column 5 as set out in a document relating to 'poultry and poultry products' published on gov.uk, in accordance with Regulation (EC) No 798/2008.(13)		
(13)	A document relating to 'poultry and poultry products' for EU and EFTA states published by the Secretary of State, with the consent of the Scottish and Welsh Ministers, may be found here: EU and EFTA states approved to export animals and animal products to Great Britain - data.gov.uk			
	This certificate is valid for 10 days.			
(14) III.	Supplementary health information concerning the certificate with reference number as in box I.2			
	I, the undersigned official veterinarian hereby certify that:			
(a)	the health conditions of Part II of this certificate continue to be met;			
(b)	the day-old chicks (1) described in this certificate:			
(i)	have been hatched on (dd/mm/yyyy);			
(ii)	at the time of consignment were examined and showed no clinical signs of or grounds for suspecting any disease;			
(iii)	have had no contact with poultry not meeting the requirements laid down in this certificate or with wild birds.			
(14)	This section may be on a separate sheet provided it is attached to Part II of the health certificate.
