Notes:

This animal health/official certificate is valid for 10 days from the date of issuing.

In accordance with the Agreement on the withdrawal of the United Kingdom of Great Britain and Northern Ireland from the European Union and the European Atomic Energy Community, and in particular Article 5(4) of the Protocol on Ireland / Northern Ireland in conjunction with Annex 2 to that Protocol, references to European Union in this certificate include the United Kingdom in respect of Northern Ireland.

This animal health/official certificate shall be completed according to the notes for the completion of certificates provided for in Chapter 2 of Annex I to Commission Implementing Regulation (EU) 2020/2235.

Part I:

Box I.30: Description of consignment

"CN code": use the appropriate Harmonised System (HS) code of the World Customs Organisation: 01.05, 01.06.39, 04.07.

"Category": select one of the following: Pure line/grandparents/parents/laying pullets/others.

Part II:

- (1) Keep as appropriate.
- (2) Applicable for breeding poultry and productive poultry. Delete reference if not applicable to the consignment.
- (3) Applicable for poultry intended for slaughter. Delete reference if not applicable to the consignment.
- (4) Applicable for day-old chicks. Delete reference if not applicable to the consignment.

				<u> </u>						
	I. Health information									
	(5)	Applicable for hatching eggs. Delete reference if not applicable to the consignment.								
	(6)	If the animals have been vaccinated against infection with any serotype of Salmonella or Mycoplasma, only bacteriological testing must be used. The confirmation method must be capable of differentiating between live vaccinal strains and field strains.								
ification	(7)	Delete when the consignment is dispatched from a Member State or zone thereof which does not have the status free from infection with Newcastle disease virus without vaccination to a Member State or zone thereof which has been granted the status free from infection with Newcastle disease virus without vaccination.								
Part II: Certification	(8)	his guarantee is required for consignments dispatched from a Member State or zone thereof which oes not have the status free from infection with Newcastle disease virus without vaccination to a Iember State or zone thereof which has been granted the status free from infection with Newcastle isease virus without vaccination. Delete reference if not applicable to the consignment.								
]	(9)	Applicable for ducks and geese, except those the consignment.	Applicable for ducks and geese, except those intended for slaughter. Delete reference if not applicable to							
	(10)	This guarantee applies only for poultry belon	ging to the species of Gallus ga	llus and turkeys.						
	(11)	If any of the results were positive for the sero positive:	types below during the life of	the flock, indicate as						
		- flocks of breeding poultry: Salmo	nella Hadar, Salmonella Vircho	ow and Salmonella Infantis;						
		- flocks of productive poultry: Salm	onella Enteritidis and Salmon	ella Typhimurium.						
	(12)	Complete if appropriate: indicate the name as	nd active substance of antimic	robials used.						
	(13)	Delete if consignment is not intended for Finl								
	(14)	•		ve hatched from eggs which						
		As the day-old chicks referred to in this animal health/official certificate have hatched from eggs which have entered the Union from a third country or territory, or zone thereof, the specific animal health requirements for movement and handling of those animals in the establishment of destination, laid down in Articles 112, 113 and 114 of Delegated Regulation (EU) 2020/692, must be respected in the Member State of destination.
